TITLE	A Report of Statistical Indicators in Selected Areas at Tyler Junior College.
INSTITUTION	Tyler Junior Coll., TX.
PUB DATE	96
NOTE	111p.
PUB TYPE	Statistical Data (110) -- Reports - Descriptive (141)
EDRS PRICE	MF01/PC05 Plus Postage.
DESCRIPTORS	Budgets; College Graduates; Community Colleges; Educational Finance; *Enrollment; Enrollment Trends; Grade Point Average; *Institutional Characteristics; *Outcomes of Education; Program Costs; *Student Characteristics; *Teacher Characteristics; Two Year Colleges; *Two Year College Students
IDENTIFIERS	*Tyler Junior College TX

ABSTRACT

This report provides data on institutional outcomes as of 1996 for Tyler Junior College (TJC), in Texas. The first part provides background information on the college, including a list of the Board of Trustees, the TJC mission and philosophy statements, a brief history, and a map of the campus. The second part provides data on student characteristics in terms of age, ethnicity, gender, and class level for fall 1989 to summer 1996, while the third describes student enrollment, including data on headcount enrollment, 1988-96; in-state, out-of-state, and international enrollment for fall 1995 and spring 1996; first-time enrolled high school graduates by county, 1990-95; semester hours in credit classes by student residence, 1988-96; early admissions by high school students, 1992-96; class sections formed, 1989-96; grades awarded, 1990-96; enrollment in instructional television programs, 1990-96, and by modem connection, 1994-95; college-wide semester grade point average, 1988-96; students on academic suspension and probation, 1989-96; continuing education enrollment and funding, 1990-95; graduates by degree or certificate, 1992-96; and graduate age, ethnicity, and gender, 1990-95. The fourth part provides information on TJC faculty, including full- and part-time status for 1992-95 and the ethnicity, age, years of service, and advancement of full-time faculty for 1994-95. The fifth part provides 1996 data on revenues and expenditures, including salaries, costs by program, and aid received by students, while the sixth describes the operations of the TJC Learning Resources Center. The final three parts provide statistics on computer services, student services, and the Ornelas Health and Physical Education Center. (HAA)

MISSION STATEMENT

Tyler Junior College - Education for Life.

PHILOSOPHY STATEMENT

Tyler Junior College is a comprehensive community college committed to meeting the needs of East Texas by providing excellence in an environment which broadens the mind, challenges the spirit and maximizes human potential. The College provides open access and equal opportunity to all qualified individuals for pursuit of their aspirations and goals in areas of academic endeavor and work force preparation. As an integral part of the community, the College is also committed to meeting the needs of business and industry in a changing global environment and to providing opportunities for lifelong learning.

The College will fulfill its mission and pursue its philosophy within prevailing fiscal and legal constraints by:

maintaining a high standard of excellence in education through...

- providing transferable academic courses and programs, technical education, developmental education and continuing education.
- meeting the needs of students with different learning styles.
- promoting higher-order thinking skills.
- recognizing scholarship among students and faculty.
- facilitating faculty and staff professional development to enhance their academic, intellectual and societal effectiveness.
- freeing faculty from unnecessary internal and external restraints which may impede effective instruction.
- encouraging innovations in teaching.
- incorporating advanced technology.
- encouraging faculty and students to work together to forge a competitive, high quality learning outcome.

creating an environment in which development of human potential is highest priority through...

- sustaining an atmosphere of cooperation, respect, dignity, and equality which transcends racial, ethnic, cultural and global boundaries.
- promoting sound moral and ethical standards that permeate all aspects of College life.
- providing a nonrestrictive climate that facilitates intellectual and experiential growth and development of students.
- guiding students toward accepting responsibility for self-directed learning.
- providing programs for physical development and competitive sports.
- cultivating avenues for development of student leadership and citizenship.

offering open access and equal opportunity for all qualified students through...

- maintaining a tuition and fee structure and administering financial support programs which encourage broad participation in higher education.
- advising to enable academic success.
- providing counseling and support services for those with special needs and capabilities.
- providing a developmental education program to meet the needs of underprepared students with academic potential.
- providing distance learning and off-campus instructional programs.
- recruiting individuals who might not otherwise be aware of their own potential or of the educational opportunities which the College provides.

meeting the needs of business and industry for competency in a global marketplace through...

- offering college credit programs in technical areas.
- providing continuing education opportunities for entry level competencies and for updating professional skills.
- tailoring training and retraining programs to prepare the work force for current and future technology.
- supporting local and regional economic development.

providing service to the community and opportunity for lifelong learning through...

- expanding awareness and appreciation of and increasing sensitivity to our multicultural society.
- offering College expertise and facilities for community members and their organizations.
- opening College activities to community participation.
- encouraging student and faculty involvement in community public service projects.
- fostering appreciation of the arts, humanities and sciences.
- cultivating an awareness of and participation in efforts toward preserving the environment.
- providing opportunities for social, spiritual and recreational development.
- nurturing development of intellectual and ethical standards.
- providing abundant opportunities for personal enrichment.

PROFILE OF TYLER JUNIOR COLLEGE

Tyler Junior College was established in 1926 as part of the Tyler Public School System. The College gave residents of the Tyler area access to higher education offering limited courses in the traditional liberal arts and pragmatic courses in public school music and home economics.

The College had a small student body during its early years. In the 1930's, as the country struggles through the Depression, only 200 students were enrolled at the College.

However, the prosperity of the 1940's signaled major changes. In 1945, Tyler voters overwhelmingly approved a measure to create a junior college district and issued $500,000 in bonds for the College. The expansion of the College included new facilities and new full-time faculty members. One of those new members taught a radio course that became the first of many vocational courses that would be offered. The College's growth came at an appropriate time for local residents and for many veterans who returned to Tyler to seek new opportunities and realized that those opportunities were linked to higher education.

Tyler Junior College has continued to expand since its "rebirth" in the 1940's. An athletics program, established soon after the junior college district was created, gave student-athletes a chance to excel on the football field or basketball court as well as in the classroom. Residence halls were built on campus in the 1950's. By the 1960's, new facilities had to be created to house the College's increasing vocational and technical programs that complemented traditional courses in the sciences, humanities and fine arts.

The Tyler Junior College District is now composed of six independent school districts: Chapel Hill ISD*, Grand Saline ISD, Lindale ISD, Tyler ISD*, Van ISD*, and Winona ISD.

Today, after 70 years, Tyler Junior College has more courses offered in any single major division than were offered in the entire curriculum in 1926. Just as the courses have diversified, so have the students. Although students who reside in the Tyler Junior College District are entitled to priority in enrollment, students from throughout Texas and the United States attend Tyler Junior College. The College now as an enrollment of approximately 8,000 full- and part-time students each regular semester who pursue a variety of degree and certificate programs. And some 15,000 continuing education students each year take advantage of the educational opportunities offered by the College.

** Portions are not in TJC District*
